Address: House # 2005, Block E, Downtown, Islamabad, Pakistan

Career Objective / Profile:

Driven Computer Science student with hands-on experience in software development and data-driven problem-solving. Skilled in Python, machine learning, with a strong interest in building practical solutions that enhance efficiency and user experience.

Education:

- Bachelor of Science in Data Science, National University of Computer and Emerging Sciences (FAST-NUCES), Islamabad, June 2026
- Relevant Courses: Data Analysis and Visualization, Object Oriented Programing, Computer Networks
- (GPA: 2.2 / 4.00)

Skills:

- Programming Languages: Python, Java, C++
- Web Development: HTML, CSS, JavaScript, React
- Databases: MySQL, MongoDB
- Data Analysis and Visualization

Languages: English, Urdu

Experience / Internships:

AI Intern, SPS Internship Program — *present*

- Gained hands-on experience with various AI and machine learning tools.
- Working on data preprocessing, model training, and evaluation using Python libraries such as TensorFlow and Scikit-learn.
- Collaborated with mentors to apply AI techniques for solving real-world problems.

Projects / Research:

1. University Google Classroom System — 2023

- Developed an object-oriented classroom management system allowing instructors to post assignments, manage grades, and communicate with students efficiently using Object Oriented Programing.

2. Cafeteria Management System — 2023

- Created a system for faculty and students to place orders, manage menus, and track payments, improving campus cafeteria operations.

Achievements / Extracurricular Activities:

- Member, Fast LADS — 2024
- Member, FAST Community Service Society — Present
- YouTube (Video Editing & Graphic Designing)
