**Career Objective / Profile:**

I am a passionate and dedicated Data Science undergraduate with a strong focus on data analysis, machine learning, and statistical modeling. My academic background, combined with practical experience in Python, SQL, and data visualization tools, demonstrates my commitment to extracting meaningful insights from data and applying analytical solutions to real-world problems.

**Education:**

FAST NUCES — Bachelors of Science in Data Science (2023 – 2027)

IMCB G-10/4 — ICS (2021 – 2023)

IMCB G-10/4 — Matric (2019 – 2021)

**Skills:**

**Technical:** C++(Intermediate), Python(Basic), EDA, Data Analysis, Data Structures(C++), HTML & CSS, Problem Solving.

**Language:** English(Fluent), Urdu (Fluent)

**Interests:** Machine Learning

**Experience / Internships:****DataVision— Machine Learning Intern (Remote | Jan 2025 – Apr 2025)**

Developed predictive models using Python, scikit-learn, and Pandas; performed data preprocessing, feature selection, and model evaluation.

Collaborated with the research team to deploy machine learning models into production environments using Flask and Docker.

**Projects / Research (if applicable):**

Snake Game, Brick Breaker, Router Simulation, Exploratory Data Analysis (EDA), Regression Model, Messenger Application, and 3-in-1 Game Menu.
