Address: House # 45, Block D, Johar Town, Lahore, Pakistan

Career Objective / Profile:

Motivated Data Science student eager to apply analytical and programming skills to real-world problems.
Passionate about data-driven decision-making and machine learning applications.

Education:

Bachelor of Science in Data Science, FAST-NUCES, Lahore, June 2026
Relevant Courses: Data Structures, Machine Learning, Database Systems, Artificial Intelligence
GPA: 3.68 / 4.00

Skills:

- Programming Languages: Python, C++, SQL
- Data Analysis & Visualization: Pandas, Matplotlib, Excel
- Machine Learning: Scikit-learn, TensorFlow
- Web Development: HTML, CSS, JavaScript
- Database Management: MySQL, MongoDB
- Version Control: Git, GitHub
- Communication and Team Collaboration

Experience / Internships:

Data Analyst Intern, Insight Analytics, Lahore (June 2024 – August 2024)
• Conducted exploratory data analysis (EDA) on business data to identify performance trends.
• Automated monthly reporting using Python, improving reporting efficiency by 25%.

Projects / Research:

Student Performance Prediction, March 2025
• Developed a machine learning model using Scikit-learn to predict academic outcomes based on study behavior and attendance.

Achievements / Extracurricular Activities:

- Dean's Honor List — 2023, 2024
- 2nd Place, FAST Data Science Hackathon — 2024
- Member, FAST Data Science Society — 2023–Present
