Address: House # 42, Block F, Model Town, Islamabad, Pakistan

Career Objective:

Data Science undergraduate specializing in agentic AI systems, machine learning operations, and financial forecasting platforms. Passionate about building scalable AI solutions and automation systems with real-world impact.

Education:

Bachelor of Science in Data Science, National University of Computer and Emerging Sciences (FAST-NUCES), Islamabad, July 2023

CGPA: 3.8 / 4.0

Skills:

- Machine Learning & AI: LangChain, LangGraph, CrewAI, Scikit-learn, PyTorch, TensorFlow, Keras, XGBoost, OpenCV
- MLOps: Docker, Azure, AWS, MLFlow, Feast, GitHub Actions, Airflow
- Data Science & Visualization: PowerBI, Excel, Matplotlib, Seaborn, Plotly
- Specialized Skills: Fine-tuning (LoRA, PEFT), Agentic Systems, ETL Pipelines, Time Series Forecasting

Experience / Internships:

AI/ML VR Intern, PROTECT Lab, May 2024 – July 2024

Projects / Research:

- Stock and Crypto Investment Platform, January 2025
- PKR Exchange and Equity Risk Analytics Platform, November 2024
- Auto MLOPS Research Agent, September 2024

Achievements / Extracurricular Activities:

- Gold Medalist, FAST NUCES, Fall 2023
- Silver Medalist, FAST NUCES, Spring 2024 and Fall 2024
- 1st Place, Coding competition, NASCON 2025
- Member, FAST Data Science Society
