Address: House # 24, Block E, Johar Town, Lahore, Pakistan

Career Objective / Profile:

I'm a Data Science student at FAST-NUCES Islamabad, currently in my 5th semester. My primary interests lie in developing database management systems, data visualization, and front-end UI development. I am skilled in C++, Python, MySQL, Assembly Language, HTML, and C#.

Education:

Bachelor of Science in Data Science, National University of Computer and Emerging Sciences (FAST-NUCES), Islamabad, June 2027

Relevant Courses: Object-Oriented Programming, Database Systems, Data Visualization

GPA: 3.10 / 4.00

Skills:

- Programming: Python, R, SQL, data structures
- Data Handling: Cleaning, preprocessing, EDA, visualization (Matplotlib, Seaborn)
- Statistics & Math: Probability, regression, correlation, ANOVA
- Machine Learning: Linear regression, decision trees, clustering, model evaluation
- Projects: Real-world datasets, business insights, customer behavior analysis
- Professional Skills: Teamwork, presentations, ethical data use

Experience / Internships:

Completed a Data Visualization course, gaining hands-on experience in transforming complex datasets into clear, insightful visuals using tools like Matplotlib, Seaborn, and Tableau. Developed strong skills in data storytelling, trend analysis, and presentation design to effectively communicate insights.

Projects / Research:

Vehicle Routing Management System (C++)

Developed a city traffic simulator using C++, modeling roads as a graph. Implemented Dijkstra's and A* algorithms.

Achievements / Extracurricular Activities:

- Community service in SAYA school March 2025-June 2025
- Event management NASCON January 2025 - April 2025
- Head team decor FDSS August 2025
