Address:[House #25, Street 10, F-8/2, Islamabad]

Career Objective:

Motivated AI undergraduate at FAST University Islamabad with hands-on experience in Python, C++, and core AI frameworks. Completed 4 semesters with practical exposure to machine learning, web scraping, and intelligent systems. Eager to apply skills and grow through a challenging summer internship in artificial intelligence.

Education:

BS Artificial Intelligence, FAST National University of Computer and Emerging Sciences, Islamabad (2023 - Present)

Relevant Courses: Object-Oriented Programming, Data Structures, Artificial Intelligence

GPA: 2.3/4.00

F.Sc (Pre-Engineering), Hitec College, Taxila (2021 - 2023)

Skills:

- Python, C++
- Machine Learning (Supervised/Unsupervised)
- Data Preprocessing and Visualization
- Problem Solving and Critical Thinking
- Team Collaboration
- Attention to Detail
- Effective Communication

Experience / Internships:

No formal experience yet; actively seeking AI internship opportunities.

Projects / Research:

- Game Bot AI – Machine Learning Agent for Street Fighter (AI Course)
Developed a machine learning-based AI agent to play Street Fighter II using real-time game state data. Built using Python, NumPy, Pandas, and BizHawk Emulator API.
- Restaurant Review Feedback System using LLMs and Web Scraping (Programming for AI Course)
Built a web scraping and sentiment analysis tool using Python, Selenium, and Anthropic API to analyze restaurant reviews and visualize trends with Matplotlib.

Achievements / Extracurricular Activities:

- Head Event, Parwaaz-e-Umeed (NASCON 2025) – Led a social impact initiative at FAST University.
- Head, Student Stall Management Team (NASCON 2025).
- Officer, FAST Adventure Society (2024).
- Member, FAST Artificial Intelligence Society (2024).
