Email: i232584@isb.nu.edu.pk

Phone: 03311009988

LinkedIn: linkedin.com/in/ammadqaiser

Address: Islamabad House 0000 Street 1, Islamabad, Pakistan

Career Objective / Profile:

Aspiring Data Scientist with strong analytical and programming skills, passionate about transforming complex data into meaningful insights through visualization and exploration. Dedicated to continuous learning and applying data-driven solutions in real-world scenarios.

Education:

- BS Data Science, FAST NUCES — 2023–Present (CGPA: 2.88)
- O-A Levels, The Science School, Islamabad

Skills:

- Programming Languages: Python, C++, R, C#, JavaScript, SQL
- Data Analysis and Visualization (Matplotlib, Pandas)
- Data Cleaning & Pattern Recognition
- Exploratory Data Analysis (EDA)
- Problem Solving & Teamwork

Experience / Internships:

1. Research Intern, TUKL Lab — NUST SEECS, Islamabad
July 2025 – August 2025

- Contributed to CNN-based research that focused on Urdu handwriting recognition.
- Developed and trained a deep learning model to classify Urdu handwritten characters with improved accuracy.

Projects / Research:

1. Game of Life (C++)
 - Developed a 20x20 grid simulation with modular functions for cell generation and neighbor tracking.
2. Hangman (C++)
 - Designed an interactive console-based game implementing OOP principles.

Achievements / Extracurricular Activities:

- Certificate in Data Visualization — NASCON FAST 2025
