Career Objective / Profile:
I aim to build a strong career in data science and machine learning, focusing on solving real-world problems through data-driven insights. My strengths include analytical thinking, programming proficiency, and a passion for continuous learning and innovation.

Education:
Bachelor of Science in Data Science, Fast National University Islamabad, 2027.
Relevant Courses: Data Warehousing and Business Intelligence, Data Analysis and Visualization, Data Mining
GPA: 2.78 / 4

Skills:
- Data Science & Machine Learning: Data Analysis, Machine Learning, Predictive Modeling, SQL, MYSQL
- Tools: Tableau, Microsoft Excel, Git, VS Code
- Soft Skills: Problem Solving, Communication, Teamwork
- Languages: English, Urdu

Experience / Internships:
1. Associate Software Engineer, Infirix
   June 2025 – August 2025
   - Worked on web development projects using modern frameworks and front-end technologies.
   - Assisted in app development, focusing on UI design, functionality, and performance improvements.

Projects / Research:
1. ScorePro – Cricket Scoring Application, Jan 2024
   - Developed a desktop application using C# (WinForms) and SQL Server to manage live cricket scoring, team stats, and match summaries. Improved data accuracy and simplified score tracking for users.

Achievements / Extracurricular Activities:
- Volunteer, Human Care Foundation — 2024
- Participant, EDAThon (Exploratory Data Analysis Competition) — 2024
- Member, LADS FAST Society —2023–Present
