Address: 308 Negra Arroyo Lane, Albuquerque, New Mexico, 87104

Career Objective / Profile:

A motivated Data Science undergraduate with a strong foundation in programming, analytics, and problem-solving. Passionate about leveraging data-driven insights to build intelligent systems and improve decision-making processes.

Education:

BS Data Science, FAST National University Islamabad, Batch of 23

Relevant Courses: Data Structures, Design and Analysis of Algorithms, Data warehousing and business intelligence

GPA: 2.77

Skills:

Python, C++, SQL

Data Analysis and Visualization (Pandas, Matplotlib)

Machine Learning (Scikit-learn, TensorFlow basics)

Database Management

Problem Solving and Critical Thinking

Communication and Team Collaboration

Microsoft Excel and Power BI

Experience / Internships:

Resource Management Internship, Qlu AI, 2022-2023

- Document Handling

- Creating and managing upcoming projects

Projects / Research (if applicable):

Customer Churn Prediction, *2024*

Developed a predictive model using Python and Scikit-learn to identify customers likely to stop using a service. Improved model accuracy to 85% using data pre-processing and feature engineering techniques.

Achievements / Extracurricular Activities:

Dean's List for Academic Performance — *2024*

Member, Data Science Society (FAST-NUCES) — *2023–Present*

Volunteer, TechFest Islamabad — *2024*
