Ali Waseem Abbasi
Email: example@domain.com | Phone: 0300-0000000 | Address: Lahore, Pakistan

Career Objective
Aspiring Data Scientist passionate about applying statistical and machine learning techniques to derive insights from data and deve

Education
Bachelor of Science (BS) in Data Science, NUCES, FAST University, Islamabad (2023 – 2027)
A Levels, Lahore Grammar School, Islamabad (2021 – 2023)

Skills
• Python, C++, SQL
• Machine Learning, NLP, Data Visualization
• Statistical and Exploratory Data Analysis
• Prompt Engineering, Problem Solving
• Data Structures and Algorithms

Projects
• Snake Game (C++) – Developed using FreeGLUT.
• Exploratory Data Analysis (Python) – Utilized NumPy, Pandas, Matplotlib; implemented Linear Regression and K-Means.
• Full Stack Web Application (Node.js & SQL) – Designed backend database using SQL.
• Traffic Simulation (C++) – Implemented graphs, trees, and shortest path algorithms with SFML.

Achievements / Extracurricular Activities
• Member, FAST Data Science Society (2024 – Present)
• Volunteer, University TechFest 2024
